Dear Gianni,

Please find below the latest developments in the match fixing investigation in Turkey.

Today, after the meeting of TFF Executive Committee, TFF President Mehmet Ali Aydınlar has made a press statement regarding the match fixing investigation in Turkey.

In his statement, TFF President Mehmet Ali Aydınlar expressed that;

“Dear press members, as TFF, we are following closely the match fixing investigation held by Public Prosecutor, started on 03.07.2011. Today we held our Executive Committee meeting, assessed the matter and decided on the issues of which I am going to announce you right now.

We expect from the whole public to act imperturbably and responsibly. As TFF, we do not have any formal documents or information. Therefore any disciplinary procedure can not be started for the time being. The disciplinary procedure will be started after the preparation of the indictment by the Public Prosecutor and its acceptance by the Court.

We are aware that our future decisions will not please all segments of society. We will try to give the fairest decision. Today is the day for unity and solidarity.

We kindly demand the support of the whole public. We will be in touch with FIFA and UEFA all the times during that process. As it was planned, our league will start on the 5th of August. The Super Cup Final will be played between Fenerbahçe and Beşiktaş. Thank you.”

Please note that we are following the investigation closely and keep UEFA informed regularly.

26.07.2011

Dear Gianni,

Please find below the latest developments in the match fixing investigation in Turkey.

As it was mentioned in our letter dated 22.07.2011, we received the official documents which consist of 26 big box files and approximately 12.000 pages, regarding the investigation from the Public Prosecutor's Office. TFF Ethics Committee is still working on the file.

We kindly wish to inform you that the starting date of domestic professional football leagues has been postponed to 9th of September by Executive Committee.

As it is already known by UEFA, Law No 6222, "Law on the Prevention of Violence and Disorder in Sports" came into force on 14.04.2011. Match fixing and incentive premium was regulated at Article 11 of the Law No 6222 and at the mentioned article, heavy confinement has been foreseen to the persons who involved in match fixing or incentive premium issues. After the acceptance of the indictment, the criminal trial will be started and Law No 6222 will be applied.

As TFF we will submit our decision regarding the clubs involved in match fixing in the shortest time possible however it may take some time. This is because as TFF, we do not want to make any mistake during our decision making process. Especially after the pronouncing of the judgment at the end of the criminal trial -which we assume to take 3 to 4 years- we want both TFF and UEFA to be faultless and not to be stranded. This is also very important for the reliability of TFF and UEFA.

Please note that we are following the investigation closely and keep UEFA informed regularly.

Subject : Information regarding the investigation held by the public prosecutor.

16.08.2011

Dear Gianni,

As Turkish Football Federation, in these extraordinary days in Turkish football, we are continuing our work with great care within the limits of law, statute and regulations. Again within the limits of law, statute and regulations, we are sharing all the stages of the operation with UEFA.

As you may have already known, in scope of the match-fixing investigation held by the Public Prosecutor of Istanbul multiple police operations were conducted since 03.07.2011. TFF immediately requested the related documents and evidences from the Public Prosecutor. On 11.07.2011, TFF Executive Committee decided to bring the case before the TFF Ethics Committee to be examined after the submission of the related documents to TFF. The said documents were submitted to TFF on 20.07.2011 and TFF Ethics Committee has been examining the documents since 21.07.2011.

A report was prepared after the examination of these documents and evidence by the Ethics Committee. The decisions and opinions of Turkish Football Federation which were taken in accordance with this report and opinions derived from it, are listed below:

- 1-) In accordance with article 157 of the Penal Procedures Code, there is a secrecy decision on the investigation which is held by the specially authorized Public Prosecutor of Istanbul.
- 2-) In accordance with article 153/2 of the Penal Procedures Code, an additional secrecy decision numbered 2010/2468 was issued on the investigation by the Beşiktaş 10th Criminal Court on 15.12.2010.
- 3-) When the documents were submitted, we also have been notified in written to comply in accordance with the secrecy decision.

4-) At this stage, to share relevant documents and evidence with the suspected clubs and persons will constitute a crime, "breach of secrecy of the investigation", which is stipulated in article 285 of the Turkish Penal Code. For this crime, there is a confinement sentence of 1 to 3 years; the sentence will be increased in half rate if it is committed via press. As a matter of fact, sharing these documents with related clubs and persons would cause an infringement to this Article and the Executive Committee Members of TFF would be imprisoned.

5-) It is obvious that sharing these documents and evidences will harm the confidential investigation of the Public Prosecutor which is still on progress.

6-) For the above mentioned reasons, not being able to share relevant documents and evidence with the suspected clubs and persons in our Federation's disciplinary procedures, will be in violation of the right to defence which is guaranteed by article 6 of the European Convention for the Protection of Human Rights, article 36 of the Turkish Constitution and article 72 of the TFF Football Disciplinary Regulations. Undoubtedly, to conduct a disciplinary procedure without granting right to defence will be in gross violation of right to seek justice and right to fair trial.

7-) Besides, as of the date of their submission to TFF, naturally, the mentioned investigation documents do not include all the related documents in the file. On the other hand after the submission of the documents to the Federation, the scope of the investigation was enlarged and still pending by comprehending many clubs and members of football family. No new information or document was submitted to TFF yet related to these issues because of the timing. It is clear that as for the TFF to conduct disciplinary proceedings in equitable way, the mentioned document must be submitted to TFF.

8-) As for the mentioned reasons is it seen by our Executive Committee that, at this stage it is not possible to reach a conscientious opinion without reaching all evidences and without enabling the right of defense in accordance with the law. It is submitted to discretion of public that it is not right, equitable and fair to decide at this stage.

9-) It is mandatory that the secrecy decision to be lifted as for TFF to conduct its disciplinary proceedings lawfully and equitably. For this, it is needed that the indictment to be accepted in accordance with the Article 175 of Penal Procedure Code. Only by this way the suspected clubs and persons can see all the allegations against them and be able to use their right of defense.

In summary, following lifting of the secrecy decision with the acceptance of the indictment, the defense statements of the suspected clubs and persons will be taken immediately. The righteous decision will be taken after taking the final report of the Ethics Committee based on the examination of these statements of defense and the content of the investigation file.
